--- which render the toothbrush attractive to a child to encourage the child to practice dental hygiene, and also to provide a toothbrush which may have utilitarian aspects as well as an ornamental appearance. These include providing a unique handle for the toothbrush in contrast to the ordinary handle provided for grasping the toothbrush. ---

Page 1, lines 25-26, cancel “form the subject matter of the dependent claims”, and insert:

--- a transparent handle for the toothbrush with a cavity therein for reception of aesthetic, ornamental, or utilitarian materials. The materials may comprise discrete elements of diverse shapes and colors. Further, such materials, or other materials, may be placed within an ampoule placed into and removable from the toothbrush handle cavity.

Further, the materials may include a plurality of loose articles, or, the handle may have liquid or powder therein with loose articles admixed therewith or floating therein. ---

Lines 6 and 7, cancel “as claimed in claim 1 or 2 and as claimed in claim 5,”.

In the Claims: (pages 14-16):

Please amend claim 2 as follows:

2. (Amended) The toothbrush as claimed in claim 1, wherein the cavity (7) is kept closed from the rear by a closure part (8; 8'; 22; 27) which can be connected non-releasably to the handle (3) at the rear end of the latter.

Please amend claim 3 as follows:

3. (Amended) The toothbrush as claimed in claim 1, wherein, for optionally filling the cavity (7), the cavity (7) can be closed from the rear by a closure part (8; 8'; 22; 27) which can be connected releasably to the handle (3) at the rear end of the latter.

Please amend claim 5 as follows:

5. (Amended) The toothbrush as claimed in claim 1 wherein the article is formed by an at least partially transparent or translucent section of film which butts against the inner wall of the cavity and has printing on it.

Please amend claim 6 as follows:

6. (Amended) The toothbrush as claimed in claim 1 wherein the article is formed by an ampoule (20) which has printing on it or has a film adhesively bonded to it.

Please amend claim 7 as follows:

Please amend claim 7 as follows:

7. (Amended) The toothbrush as claimed in claim 1 wherein the article comprises luminescent parts..

Please amend claim 8 as follows:

8. (Amended) The toothbrush as claimed in claim 1 wherein the article comprises hologram foils.

Please amend claim 11 as follows:

11. (Amended) The toothbrush as claimed in claim 2 wherein the closure part (22; 27; 37) is provided with a positioning part (23; 24; 25; 28; 38) for positioning the toothbrush (1) on an underlying surface.

Please amend claim 13 as follows:

13. (Amended) The toothbrush as claimed in claim 2 wherein the closure part is produced from a thermoplastic elastomer.

In the Abstract:

Please insert the attached Abstract of the Disclosure on the attached page.

REMARKS

The subject Preliminary Amendment corrects the application in formal respects, and places the case in better form for examination.

The application contains 15 claims, of which claim 1 is independent, the remaining claims depending directly or indirectly therefrom. Care has been taken to avoid the introduction of any new matter.

Respectfully submitted,

--- ABSTRACT OF THE DISCLOSURE

A unique ornamental and utilitarian toothbrush characterized by a bristle-carrying head part and a handle, wherein the handle includes transparent or translucent portions and is further provided with a closed cavity extending in the longitudinal direction of the toothbrush, and wherein an article is received within the cavity and is visible through the transparent or translucent handle portion. The handle cavity has a closure and the toothbrush is formed from plastic materials. The enclosed article may be decorative, of plural or single parts, and wherein further liquid may be in the cavity. ---

Claims Showing Amendments Thereto per Rule 111

2. (Amended) The toothbrush as claimed in claim 1, wherein the cavity (7) is kept closed from the rear by [means of] a closure part (8; 8'; 22; 27) which can be connected non-releasably to the handle (3) at the rear end of the latter.

3. (Amended) The toothbrush as claimed in claim 1, wherein, for optionally filling the cavity (7), the cavity (7) can be closed from the rear by [means of] a closure part (8; 8'; 22; 27) which can be connected releasably to the handle (3) at the rear end of the latter.

5. (Amended) The toothbrush as claimed in claim 1 [one of claims 1 to 3] wherein the article is formed by an at least partially transparent or translucent section of film which butts against the inner wall of the cavity and has printing on it.

6. (Amended) The toothbrush as claimed in claim 1 [one of claims 1 to 3] wherein the article is formed by an ampoule (20) which has printing on it or has a film adhesively bonded to it.

7. (Amended) The toothbrush as claimed in claim 1 [one of claims 1 to 6,] wherein the article comprises luminescent parts.

8. (Amended) The toothbrush as claimed in claim 1 [one of claims 1 to 6,] wherein the article comprises hologram foils.

11. (Amended) The toothbrush as claimed in claim 2 [one of claims 2 to 10,] wherein the closure part (22; 27; 37) is provided with a positioning part (23; 24; 25; 28; 38) for positioning the toothbrush (1) on an underlying surface.

13. (Amended) The toothbrush as claimed in claim 2 [one of claims 2 to 12,] wherein the closure part is produced from a thermoplastic elastomer.
